

Guide to Accessing Government Email on Mobile

Version: 1.1
Date: June 2026

This guide provides step-by-step instructions on how to access your government email account from a mobile phone or tablet. This is required because you must access your email account from the same device on which the Blockcerts Wallet App will be installed.

To access the government webmail service, open a web browser on your mobile phone or tablet, such as Google Chrome, Safari, or any other browser, and enter the following URL: <https://webmail.gov.mt>

1. The login page shown in **Figure 1** will be displayed. Sign in using your government credentials by entering your government email address (e.g., name.surname@gov.mt).
