Guide to Downloading the Blockcerts Wallet App

Version: 1.3
Date: July 2026

The Blockcerts Wallet app is available exclusively for mobile phones and tablets. While downloading the app is optional, it is highly recommended as it offers a secure and convenient way to store and manage all your IPS certificates in one place.

1. On your mobile device's home screen (as shown in the screenshot below), tap the **Google Play Store** icon to download and install the **Blockcerts Wallet** app.

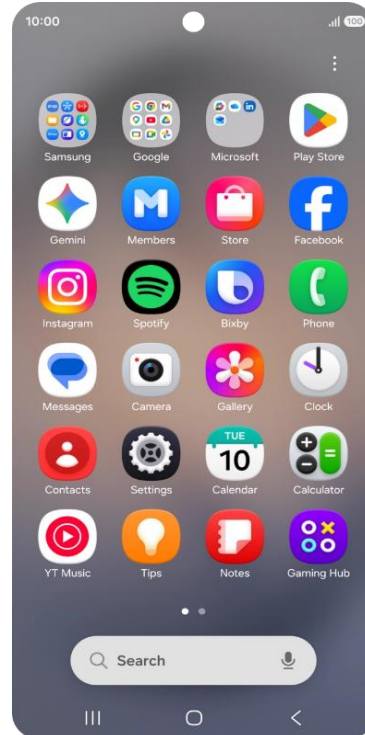

Figure 1 - Mobile Home Screen

2. Open the Google Play Store app. In the Search, type **Blockcerts Wallet**, then tap Search to locate the application.

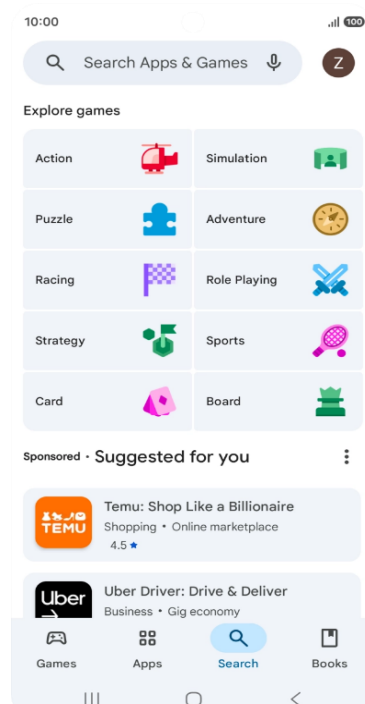

Figure 2 - Play Store

3. Select **Blockcerts Wallet**, press on the **Install** button and wait until it installs on the mobile phone/tablet.
